

Dr. Ornelas,

Thank you so much for the dental extraction that you recently did for me. You were highly recommended to me by my regular physician Dr. John Humiston, and from the moment that you and I discussed the serious health issues associated with root canals, I knew that you were an expert, a wealth of knowledge, and a highly skilled dentist that I could rely on to properly remove a problematic root canal that I now am completely convinced was the main cause of my cancer.

I was diagnosed with CLL, and Non-Hodgkin's Lymphoma about six years ago, I was fourth stage, and very ill from the cancer. Rather than allow western doctors to put me through radical chemotherapy, I chose to heal my cancer using alternative methods. Dr. John Humiston, and Dr. William Hitt were both extremely helpful in helping me to obtain remission.

When I read about the highly toxic bacteria that are contained in the root canals, and how root canals are a major cause of most degenerative disease, I knew that the removal of my root canal was going to be crucial for my complete recovery from cancer.

You did a consultation with me regarding root canal removal , you showed me in the x-rays how the root canal was showing signs of problems; you discussed with me the importance of not having metal in my mouth, or root canals. You did the extraction of my root canal, and three weeks later, my lymphocyte count went from being extremely high, to absolutely normal.

After the extraction I lost weight, my constipation problems completely went away, an intense crippling pain in my lower back that I have been suffering from for many years completely disappeared. And my cancer went completely into full remission.

You are a very professional, compassionate and extremely skilled dentist, and your knowledge and work completely transformed my life for the better.

Phoenix Stone (survivor)

March 22, 2005

Dr. Ornelas was recommended to me by a pharmacist friend who had a complete bridge done. Four years ago I moved to Southern California. The first thing I needed was crown. Dr. Ornelas did the work for half the price of my local dentist.

Last week he finished a triple crown bridge. Perfect fit and color match. At a savings of \$1000s.

Impeccable credentials, personable manner, steps across the border. What more could I want?

Highly recommended.

Richard Derby
Redlands, California.

To Whom It May Concern:

I have known Dr. Carlos Ornelas Otañez for approximately one year now and wish I had known him prior. He was recommended to me by the William Hitt Center and is highly regarded by them as an excellent dentist, capable of much more than just regular dentistry. He speaks English as well as you or I, is very well educated, and his staff is great. He uses the latest technologies as well as new cutting edge developments.

During the one year that I have known Dr. Ornelas, I have had all of my fillings removed and replaced (to get rid of the mercury potential – due to my M.S.) which included two crowns, and nine inlays, miscellaneous cosmetic improvement, as well as a recent root canal. I can honestly say that in my 51 years I have never found a dentist that can give an almost pain free shot as well as Dr. Ornelas. Ninety five percent of the time, I didn't feel a thing.

Each time I or someone in my family has needed dental care; Dr. Ornelas has arranged his schedule to work us in as quickly as possible- in many cases, the next day. We travel from Wyoming each time, so it takes a day to get there. He and his staff are very courteous and respectful and offer extremely good prices- (as well as they stand behind their work) in many cases about half of what you would pay for in the States and in my opinion, their work is just as good- if not better.

If you are looking for a great dentist-biological or otherwise, a great price with excellent service, I highly recommend Dr. Ornelas and his staff. They do excellent work and are great people.

Sincerely,

John Haslem
Greybull, WY.

December 3, 2006.

I traveled to Tijuana from Dallas for a variety of medical services. I was referred to Dr. Ornelas for a cap on a molar.

Dr. Ornelas made a great accommodation in my busy schedule and did a splendid procedure with an excellent result.

I would gladly guide my friends in Dallas to his office for state-of-the-art dentistry.

Best regards,

Bill Kirklan
Dallas, TX.

April 23, 2007

Dr. Ornelas:

I would like to take the opportunity to thank you for your exceptional dental work you provided for me.

The porcelain crowns, root canal and permanent bridge are of excellent quality. You are one of the best dentists I have gone to.

To addition, the fees for your procedures are fifty to sixty percent less in the U.S.

I would highly recommend anyone who wants quality dental work to visit you. Those who do will have not a new dentist, but also a new friend.

Regards,

John Lepard
Carlsbad, CA.

May 2, 2005

Dear Dr. Ornelas:

Just a quick note to thank you for your help in getting my smile back.

My sister Barbara will be calling you for an appointment early next week. As I mentioned, she lives in Santa Barbara and will be coming to see you. If necessary, she can remain over night in Tijuana or San Diego for the appointments.

Thanks for your help.

Best regards,

Carri Carl
Burbank, CA.

November 29, 2006

Dear Dr. Carlos,

How have you been sir?

Due to your good job filling my gum with white stuff, I really have been enjoying my teeth for years.

Again, I sincerely appreciate for your great service which I never had in my life.

I would like to check and fill my half broken tooth if you may on December 6th, afternoon. Please let me know your US phone number so that I can call you for my appointment.

Respectfully,

Charles Parks

July 25, 2005

Aloha Carlos:

I highly recommend Dr. J. Ornelas Otañez. To me his approach to dentistry is not only professional but also artistic. When he was working on my teeth I felt as if he were a sculptor as well as an excellent technician. I am very happy with the outcome of his work and have highly recommended him to my friends that need dental work.

Don't know if this is what you wanted but hope it will do. Good luck my friend.

Aloha for now.

Sevan Thometz
Artist on Maui, Hawaii, USA.

Carlos:

Thank you so much for your patience. You did a good work.
I appreciate what you've done for me and I will never forget it.

Allan Dorfman
Del Mar, CA.

May 4, 2005

My wife and I have been going to Dr. Ornelas exclusively for all our dental needs for over 5 years. During this time we have referred Dr. Ornelas to numerous family and friends who have also found him and his staff to be very caring, professional and up to date with the latest techniques and procedures.

In closing, we are most thankful for having been referred to Dr. Ornelas and to have him as our family dentist.

Sincerely,

Larry and Cat Pedersen
Palm Desert, California

May 2, 2005

Dear Dr. Carlos Ornelas,

It is with a pleasure and a new bright smile that I am writing to thank you for your services.

As you know, for the last 15 years I had been plagued with a variety of difficult dental problems. I had terrible experiences with several USA- based Dentists who charged (or wanted to charge) a fortune to repair (or not to repair) my teeth.

After finding you on the internet two months ago I am very pleased with the service you provided in only four visits. It was well worth my two trips from Phoenix.

Thank you, Dr. Ornelas.

Cordially,

Don Miller
Scottsdale, Arizona

I came here from Massachusetts to have a major dental work. After researching dentists in Mexico for over a year I decided on Dr. Ornelas because he was:

1. Biological
2. Responsive to emails/ pricing, references, general information
3. His references were excellent

Then I came, stayed at Las Rocas Spa/ Hotel in Rosarito, which was excellent. The whole experience was very good.

Dr. Ornelas is a warm person, caring and loving dentist. He is responsible and cares about his reputation and patients.

His dental work is very good visibly and technically. Time will tell how well all of the work feels in my mouth but I recommend Dr. Ornelas.

Sincerely,

Jessica Feldheim
Massachusetts

April 28, 2005

Dr. Ornelas is BY FAR the best dentist I have ever run across. It has been a pleasure having my teeth worked on by Dr. Ornelas. His work is the highest quality, and my teeth are now, thanks to him, in fantastic shape. I would recommend Dr. Ornelas to anyone and everyone (as I always do) for any your dental needs.

Forrest Cokely,
Costa Mesa, California

April 15, 2005

To Whom It May Concern:

It is my pleasure to provide this letter of referral for Dr. J. Ornelas Otañez of Tijuana, B.C., Mexico.

About ten years ago I required some extensive dental treatment and consulted with three dentists in southern California. These dentists wanted to do what they wanted (not what I wanted) and were charging outrageous prices.

A mutual friend refereed me to Dr. Ornelas and I found he provides a superior professional service about 60% of fees charged in the US.

Since my treatment I have recommended Dr. Ornelas to numerous family, friends and acquaintances and everyone has been delighted with his services.

I recommend Dr. Ornelas without hesitation or reservation.

Sincerely,

Al C. Lambert
Oceanside, California

April 25, 2005

To Whom It May Concern:

As a result of many years of neglect my teeth were in very bad condition. Nearly half of them had been pulled and the remaining teeth were crowned, had root canals or both. After having \$2,600 of crown replacements in one year, for those that had broke off or had otherwise become unserviceable, I had been advised in the past that I would eventually have to have all the teeth removed and replace with dentures. My confidence in the dental profession was at a low level.

A friend recommended I accompany him to see Dr. Ornelas in Tijuana, B.C., Mexico. Dr Ornelas confirmed the sad state of my remaining teeth, and also identified infection around the roots of the remaining teeth. As a result, I opted to have all the remaining teeth pulled and replaced with dentures. Since the root canals and crowns at gum level, the roots had to be "dug out". While not looking forward to this, I was pleasantly surprised and happy to report that the pulling of the teeth involved no pain whatsoever.

Impressions were taken for the dentures and delivered. Yes they are different, but considering what they replaced, I am far ahead. Compared to having the same work done in the States, I saved considerable money also.

I highly recommend Dr. J. Ornelas Otañez, DDS who recently complete extensive dental work for me and that I am very pleased with the result. Dr. Ornelas has restored my confidence in dentists and is personally on of the finest dentist that I have come in contact with.

Sincerely,

Jim Bassett
Oceanside, CA.

May 2, 2005

Dear Dr. Ornelas:

I want to thank you for the superb professional care you gave me in repairing my damaged teeth.

Since I had postponed having the work done for many months I expected a painful and costly experience but was delighted to receive such excellent pain free care at a reasonable cost.

I will be recommending you to all my friends- North of the Border.

Thanks Dr. Ornelas

Sincerely,

Jan Arrigo
Carlsbad, California

March 8, 2007

I originally went to Dr. Ornelas on the advice of a friend. I admit, I was somewhat doubtful of going to a Mexican dentist, but I'm glad to say that I overcame my doubt. I am very pleased with the work Dr. Ornelas did. Two dentists in the US told me to get veneers for my front teeth; and my wife was insistent that I get permanent to have my front teeth crowned. The cost for veneers would be \$1000 a piece.

After consulting with Dr. Ornelas, he told me that, although most of his work would be about 1/3 the cost of having it done in the US, he also used the same veneers as my US dentists had recommended. They were the best, he said. He could not charge me less, therefore- but he also did not try to sell me a cheaper less effective brand. I very much appreciated his honesty.

He agreed that veneers were costly and since they frequently had problems later, should I opt for veneers, advised that they should be applied by a dentist nearby my home. Again, I was very pleased his honesty.

I chose to have the crowns put in- at 1/3 the cost of a US dentist. Dr. Ornelas took great patience to make them match my existing teeth- and they look great. Dr. Ornelas works carefully- his two assistants speak enough English, and there is an atmosphere of congeniality and good humor as Dr. Ornelas works and chats with his staff.

This helps a lot to relieve the boredom and stress of long procedures. You can also brush up your Spanish, if you're so inclined. Dr. Ornelas also specializes in mercury-free dentistry. Although small, his office has what seem to me to have the latest technology. He cleaned my teeth with a laser (as well as gels) and employed a Swiss-made suction system to void my mouth of any gases and fragments of amalgam that were emitted during the process of replacing them. He was very aware of the dangers inherent in working with the mercury amalgams, and we both wore masks as he removed the fillings.

My wife was so pleased with the work; she also had her amalgam filling replaced. You can see Dr. Ornelas's office building from the border crossing, making it very easy to get to. For the first trip, Dr. Ornelas suggested an inexpensive Best Western near the border (which provides a van ride in the morning right to his office and back). However, on my last trip, I was able to get a Southwest Airlines (round trip: \$100) in Oakland at 7 a.m., take a bus to San Diego center, catch the blue Line trolley that takes you to the border (1 hour), walk across the border almost directly into his building. He put in the crowns, made sure I was content with the work, and I was able to retrace my way back to Oakland by 8 p.m.

I highly recommend Dr. Ornelas for dental work. It is no problem going to his office, and (because he doesn't have the overhead and costs US dentists have) he does the best work for much less. Were I to have any problems with his work, I'm confident that he would be available and honest to rectify the situation. I will certainly go back to him- for the savings of even one crown is worth the cost of the air fare.

Best regards,

Jeff Spuck

November 4, 2006

Hi Doc,

Thanks for your excellent dent work, especially the ozone treatment. It is efficient and well done. I recommend people who want to get rid of all the metal toxins from their mouth.

Thanks,

Jenny Lee

Dear Doctor Carlos,

We are back in our cabin in the woods of far Northern California and wishing we were back in Mexico. Our broken down mini-motor home prevented us from spending more time in Mexico as we planned - we ran out of money.

We are happy you showed us a part of Tijuana we had never seen. We always thought we had to go way south of the border to find the real Mexico, but the area you showed us looks like Colonia Roma of Avenida Insurgentes where I lived in Mexico City while going to Mexico City College forty years ago. Next time we go to Tijuana we will go back to the area you introduced us to. As you said, the food is better and cheaper and everything is nicer and better. It is on the Avenida Niños Heroes, but most tourists are too stupid to know who the Niños Heroes were. I know because my first apartment in Mexico City was next to Chapultepec Park.

I've been to 80 countries and the main thing I've learned is that people don't know much about other countries and most of what they go is wrong. We realize now that tourists are ignorant when they go to the tourist area in Tijuana and we'll enjoy the better part of Tijuana from now on.

Our teeth healed up immediately and we're so happy with your work that we will be back next year. I am enclosing in the plastic bag the light that fell down my shirt. I should have stripped to find it while in your office, but I'm a little old for strip shows.

Sincerely,

Miyoko and Tom Wesley
Somes Bar, CA, USA

May 8, 2008

To Whom It May Concern:

I am very happy to give this testimonial for Dr. Carlos Ornelas. I was born with bad teeth and I am dental phobic. This is not a good combination. By the time I saw Dr. Ornelas I was 65 years old and had over 30 fillings, crowns and root canals. I had begun some rigorous dental hygiene practices about 15 years before I was able to halt decay and fillings. That was a good thing, because I was running out of teeth.

What finally pushed me into Dr. Ornelas office was that I lost a filling. I stayed in denial for a couple of weeks, and then a filling on the other side popped out. I made some phone calls and two dear friends suggested that I contact Dr. Ornelas. Both of these women are talented practitioners in their own right. One of them is at least as dental phobic as I am. She told me that Dr. Ornelas had not hurt her and that the appointments were as stress free as possible. So I made the first appointment and drove down to Tia Juana with my wife. We met and he did the assessment. His approach was pleasant and respectful. He worked out a treatment plan to be carried out over and extended period of time so as not to place any excessive stress on my body. His total fee was very reasonable, especially considering that it was holistic treatment using non toxic materials.

Yolanda, my wife and I made at least 10 trips to Tia Juana for dental work. I never felt any pain. Nor was I in any great condition of stress. This was largely due to Dr. Carlos skill and also his chair side manner. During this period of time I got to know the Doctor really well and gained great respect for his skill and talent as well as his general integrity.

I am most honored to recommend Dr. Carlos Ornelas as a provider of any form of fine dental care, whether to a child or an elder, for damage control or maintenance. His skill is matched by his compassion. He has a strong personal commitment against causing a patient pain. His office is pleasant and his assistants are kind and gentle in their dealings with patients.

Very sincerely,

John Lowery
Glendale, California

October 11, 2007

To Whom It May Concern:

I have known and been served by Dr. Ornelas for about ten years and found his services to be outstanding. He is as knowledgeable and competent in dentistry as any dentist I have been to, better than most. His office is clean and equipment of the latest technology. Besides, he is very personable, explaining the dental procedures and expectations as they are performed. His charges are very reasonable, much more so than what I have experienced the U.S. and comparable to those I found in Southeast Asian dental facilities. I highly recommend him to anyone.

Fred Michaels
Black River Falls, WI.

June 4, 2008

Our experience with Dr. Ornelas was nothing short of wonderful. His office and staff were clean and professional, yet relaxed and encouraging. Service was administered with a personal touch. I had extensive restoration and amalgam removal and have had no trouble with his work. The total bill for us was only 60% of the lowest estimate in the states.

The location of his office is ideal for those not entirely at ease with the idea of visiting a border town.

The office is within walking distance of the border, sparing customers of traffic congestion and border crossing delays. Dr. Ornelas personally helped us work out all the logistics.

We give him and his staff the highest recommendation!

Sincerely,

Aaron and Erin Slack

October 21, 2007

To Dr. Ornelas:

It is with great pleasure that I write this letter in thanking Dr. Jesus Carlos Ornelas Otañez for the care given to myself and I'm sure to all of the people to whom he has come in contact with.

He is without a doubt the most giving and caring person that I have had the pleasure to know, a person that with the drop of a hat will go out of his way to help any and all that are in need of help, be it in his dental clinic, or in his personal life.

The world would be a greater place if all could be as giving and as caring as Dr. Ornelas, I am very pleased to say that this man is a friend of mine.

Charles Hess
Onboard the S. V. Javamoon

March 10, 2008

To Whom It May Concern:

My dental history is extensive; which means I have seen many dentists throughout the years. One day while complaining about my dentist, my cousin told me to visit Dr. Ornelas in Tijuana, Mexico. I am a college graduate from Chicago and would not normally think of going to Mexico for Healthcare, but since my cousin was such a strong reference, I took his advice, now I am smiling!

For the last 5 years, Dr. Carlos has taken my dental health to new levels and reduced my physical pain and financial pain. His services are far superior to ANY services performed in the states, and less expensive. The staff is friendly and professional; the office is clean and spacious with new clean equipment. When I call for an appointment, they are always available to take me, especially in an emergency, something I would not experience with my dentists in the United States.

Thank you, Dr. Ornelas for the years of professional service, as always your services are highly recommended.

Sincerely,

Anthony V. Nicola
Patient

My husband and I recently visited Dr. Ornelas for extensive dental work and we were overjoyed by the results. We first heard about Dr. Ornelas from a close friend who had been to see him while receiving alternative cancer treatments in Mexico. Our friend and ourselves both live in Hawaii where dental work is very expensive. Between my husband and me we required four crowns, one root canal, and fillings. We also decided to have our teeth whitened using the ZOOM technique. Dr. Ornelas was so accommodating and even did all of this work in two days while maintaining the highest level of dentistry.

Upon receiving a routine dental checkup here in Hawaii our dentist complimented Dr. Ornelas's work. We would highly recommend Dr. Ornelas and allow him to give you our phone number for any questions you may have. We will continue to travel from Hawaii to have major dental performed by Dr. Ornelas.

Sincerely,

John and Holly Wisniewski
